

JUNIOR X BLACKHULL THESIS SUBMITTED IN PARTIAL FULFILLMENT OF THE REQUIREMENTS FOR THE DEGREE OF MASTER OF SCIENCE KANSAS CITY AGRICULTURAL

"Seems like," Vanadium agreed. "So a man like Cain obsesses on one thing after another—sex, money, food, power, drugs, alcohol, anything that seems to give meaning to his days, but that requires no real self-discovery or self-sacrifice. Briefly, he feels complete. However, there's no substance to what he's filled himself with, so it soon evaporates, and then he's empty again." On a street a half mile from the airport in Eugene, he sat in the parked Dodge long enough to gingerly unwind the bandages and use a tissue to wipe off the pungent but useless salve he'd purchased at a pharmacy. Although he pressed the Kleenex to his face so gently that the pressure might not have broken the surface tension on a pool of water, the agony of the touch was so great that he nearly passed out. The rearview mirror revealed clusters of hideous, large, red knobs with glistening yellow heads, and at the sight of himself, he actually did pass out for a minute or two, just long enough to dream that he was a grotesque but misunderstood creature being pursued through a stormy night by crowds of angry villagers with torches and pitchforks, but then the throbbing agony revived him. Junior said nothing. He was still upset with Naomi for hiding the pregnancy from him, but he was delighted that the baby would have been his. Now Vanadium couldn't claim that Naomi's infidelity and the resultant bastard had been the motive for murder. Although their apartments were above the garage, back to back, each was served by a separate exterior staircase. As often as either man entered the other's domain, they might as well have lived hundreds of miles apart. Arriving home, he hesitated to open the door. He expected to find Vanadium inside. The machine, one in a bank of four, wasn't filled with ordinary newspapers, which cost only a dime, but with a raunchy tabloid aimed at heterosexual swingers. In fifty years, until Angel, Tom had found no other like himself and now a second in little more than a week. "I can't do what you did." "Yes?" the silver-haired eminence replied, wrinkling his nose as though he suspected that this customer would ask if the display pedestal was included in the price. Although he harbored no fear of coming under suspicion for the murder of Victoria Bressler, he intended to leave Spruce Hills this very night. No future existed for him in such a sleepy backwater. A wider world awaited, and he had earned the right to enjoy all that it could offer him. This claim wasn't true. His father, an unsuccessful artist and highly successful alcoholic, lived in Santa Monica, California. His mother, divorced when Junior was four, had been committed to an insane asylum twelve years ago. He rarely saw them. He hadn't told Naomi about them. Neither of his parents was a resume enhancer. Thunder less distant now. Around her—the crackle of police radios, the clang of tools being readied, the skirl of a stiffening wind. Dizzying, these sounds. She couldn't shut her ears against them, and when she closed her eyes, she felt as though she were spinning. Max hung up. The Ansaphone made a series of small robot-mouse noises and then fell silent. With his refreshed drink, studying Celestina's photograph in the brochure, Junior returned to the living room. She was as stunning as her sister, but unlike her poor sister, she wasn't dead and was, therefore, an appealing prospect for romance. From her, he must learn whatever she knew that might help him in the Bartholomew hunt, without alerting her to his motive. At the same time, there was no reason that they couldn't have a fling, a love affair, even a serious future together. In the kitchen again, Junior spread the blanket on the floor, to one side of the blood. He rolled Vanadium onto the blanket, and drew the ends of it together, fashioning a sled with which to drag the detective out of the house. Solitude, however, was his preference. He found the sympathy of friends unbearable, a constant reminder that Perri was gone. Now, here, lying on a bed in the emergency room of a Sacramento hospital, on a Saturday afternoon only six weeks before the camellia festival, Junior suffered under the care of a resident physician who was so young as to raise the suspicion that he was merely playing doctor. In his blindness, Barty listened to her reports and, through her, saw more than he could have seen if never he had lost his eyes. unwittingly oversell any strong reaction, striking a false note and raising suspicions. "A wonderful wedding," Celestina promised her, taking a pair of pajamas from a dresser drawer. Bill wasn't impressed. "They build houses out of mud in China. No wonder everything falls down." She hadn't sung since the early-morning hours of October 18, and no other paranormal event had occurred since then. The waiting between manifestations scraped at Junior's nerves worse than the manifestations themselves. "Joey was, after all, an insurance broker," Vinnie reminded her. "He was going to look out for his family." "Do you know about the earthquake that destroyed seventy percent of Tokyo and all of Yokohama on September 1, 1923?" he asked. As the nurse gave Junior the injection, Parkhurst said, "You're an exceptionally sensitive man, Enoch. That's a quality to be much admired in an often unfeeling world. But in your current condition, your sensitivity is your worst enemy." Being ruthlessly honest with himself, as always, he acknowledged that killing Tammy would not solve his problem. She might have told friends and colleagues about the Rolex, just as she had surely shared with her girlfriends the juiciest details about Junior's unequalled lovemaking. During the two months that he and the cat woman dated, others had heard her call him Eenie. He couldn't kill Tammy and all her friends and colleagues, at least not on a timely enough schedule to thwart the police. The revolving beacons dwindled, casting off blue-and-red pulses of light that shimmered-swooped through the diffusing fog, as if they were disembodied spirits seeking someone to possess. A nurse in surgical greens appeared. "Pull up the sleeves of your scrub nearly to your elbows. Scrub hard. I'll tell you when to stop." He placed a hand on her shoulder. "Don't beat up on yourself. She's come this far. And though I don't know the hospital in Oregon, I doubt the level of care would equal what she'll receive here." He raised one hand to halt the genteel debate. "The whole reason I stopped here first, before taking you folks on to my place, is so I wouldn't have to bring your suitcases back after Agnes won you over. This is where you'll be happiest, though you're always welcome if she tries to work you to death." JUNIOR CAIN WANDERED among the Philistines, in the gray land of conformity, seeking one—just one—refreshingly repellent canvas, finding only images that welcomed and even charmed, yearning for real art and the vicious emotional whirlpool

of despair and disgust that it evoked, finding instead only themes of uplift and images of hope, surrounded by people who seemed to like everything from the paintings to the canapes to the cold January night, people who probably hadn't spent even one day of their lives brooding about the inevitability of nuclear annihilation before the end of this decade, people who smiled too much to be genuine intellectuals, and he felt more alone and threatened than eyeless Samson chained in Gaza. Tom stared at the girl's drawing—quite a good one for a child her age, rough in style, but with convincing detail—and if skin could be said to crawl, his must have moved all the way around his body two or three times before settling down again where it belonged. "Are these ... ?". When Agnes groaned, one of the shadows spread its wings, moved closer, to the right side of the bed, and resolved into a nurse. Agnes's vision had cleared. The nurse was a pretty young woman with black hair and indigo eyes. If the nun and the nurse could know the loathing that Celestina had felt earlier, they would never allow her here in the creche, never trust her with this newborn. During the following ten days, he withdrew money from several accounts. He converted selected paper assets into cash, as well. Happiness could grow out of unspeakable tragedy with such vigor that it produced dazzling blooms and lush green bracts. This insight served, for Celestina, as a primary inspiration for her painting and as proof of the grace granted in this world that we might perceive and be sustained by the promise of an ultimate joy to come. "I can talk to you," he said to Salk. "You'll understand. She was hero, the only one I ever knew till I met you. I've read about them all my life, in pulp magazines and paperbacks. But Perri ... she was the real thing. She didn't save tens of thousands—hundreds of thousands of children like you've done, didn't change the world as you've changed it, but she faced every day without complaint, and she lived for others. Not through them. For them. People called her to share their problem, and she listened and cared, and they called her with their good news because she took such joy in it. They asked for her advice, and though she was inexperienced, really, so short of experience in so many ways, she always knew what to say, Dr. Salk. Always the right thing. She had great heart and natural wisdom, and she cared so much." For more than twenty-three years, he'd given his big toe little consideration, had taken it for granted, had treated it with shameful neglect. Now this lower digit seemed precious, a comparatively small fixture of flesh, but as important to his image of himself as his nose or either of his eyes. "To support my eyelids. And because without anything in the sockets, I look gross. People barf. Old ladies pass out. Little girls like you Pee their pants and run screaming." For each of them, Agnes put one scoop of vanilla ice cream in a tall glass of root beer, and after changing quickly into their pajamas, they sat together in Barty's bed, enjoying their treats, while she read aloud the last sixty pages of Starman Jones. The odds against this phenomenal eleven-card draw must be millions to one, which seemed to give the predictions validity. As though Amelia Earhart, the long-lost aviatrix, had reached out of her twilight zone and snared the two bits, no tumbling coin glinted in the air above the desk. He was surprised they had come so soon, less than twenty-four hours after the tragedy. This was especially unusual, considering that a homicide detective was obsessed with the idea that rotting wood, alone, was not responsible for Naomi's death. "Making too many wrong choices," Grace White said, "produces too many branches—a gnarled, twisted, ugly growth." Tom Vanadium, on the other hand, was certain that Cain, having prepared for the possibility that something would go wrong during his assault on Celestina, wouldn't be easy to locate or to apprehend. In Vanadium's view, the maniac either had a bolt-hole waiting in the city or was already out of the SFPD's jurisdiction. "All right, the scary one." "I SOMETIMES EVEN EAT SPIDERS WITH MY CAVIAR." "Now who's being gross?" The morning that it happened, Edom woke early from a nightmare about the roses. break and conversation among the customers fell into a lull. When the bar phone rang, though it was muted, he heard it at his table. On the day that Vanadium attended the graveside service for Seraphim and subsequently stopped at Naomi's grave to needle Cain, he had suspected that Phimie didn't die in a traffic accident, as claimed, but he hadn't for a moment thought that the wife killer was in any way connected. Now, finding this gallery brochure in the nightstand drawer seemed to be one more bit of circumstantial proof of Cain's guilt. Because Junior's right arm was encumbered by the bracing board and the intravenous needle, he tugged a mass of tissues from the box with his left hand. She told them of Phimie's request that the baby be named Angel. "At the time, I assumed she wasn't able to think clearly because of the stroke. He had been walking ever since, two and a half years, with brief respites in Bright Beach. Kid's room. Bartholomew's room. Furniture in cheerful primary colors. Pooh posters on the wall. "Yeah, they think we're with Candid Camera. So Jimmy points to this United Parcel truck parked across the street and says the cameras are in there." In the sermon that brought him a moment of fame that he'd found more uncomfortable than not, Daddy had used the life of Bartholomew to illustrate his point that every day in every life is of the most profound importance. Bartholomew is arguably the most obscure of the twelve disciples. Some would say Lebbeaus is less known, some might even point to Thomas the doubter. But Bartholomew certainly casts a shadow far shorter than those of Peter, Matthew, James, John, and Philip. Daddy's purpose in proclaiming Bartholomew the most obscure of the twelve was then to imagine in vivid detail how that apostle's actions, seemingly of little consequence at the time, had resonated down through history, through hundreds of millions of lives—and then to assert that the life of each chambermaid listening to this sermon, the life of each car mechanic, each teacher, each truck driver, each waitress, each doctor, each janitor, was as important as the resonant life of Bartholomew, although each dwelt beyond the lamp of fame and labored without the applause of multitudes. Shortly before three o'clock, Thursday afternoon, in a state of agitation, Barty raced into the kitchen, where Agnes was baking buttermilk-raisin pies. Holding Red Planet open to pages 104 and 105, he complained urgently that the library copy was defective. "There's twisty spots in the print, twisty-funny letters, so you can't just exactly read all the words. Can we buy our own copy, go out and buy one right now?" "Anyway, something clicked in me on the roller coaster, and I grasped a new angle of approach to the problem. I've figured out that I can walk in the idea of sight, sort of sharing the vision of another me, in another reality, without actually going there." He smiled into her

astonishment. "So what do you say about that?" Sweaty, chilled, trembling, weak-kneed, watery-eyed with self-pity, Junior spread a plastic garbage bag on the driver's seat. He got in the Suburban, twisted the key in the ignition, and groaned as the engine vibrations threatened to undo him..He stared I out at the congregated ghosts of fog, white multitudes that entirely obscured the bay, as if all the sailors ever lost at sea had gathered here, pressing at the window, eyeless forms that nevertheless saw everything..exercise. Although they expected him to be dizzy, he had no difficulty whatsoever with his balance, and in spite of feeling a little drained, he wasn't as weak as they thought he was. He could have toured the hospital unassisted, but he played to their expectations and used the wheeled walker..cocktail lounge to be her personal pickup spot. Naturally, people who worked the lounge knew her, were friendly with her. They would remember any man who accompanied the heiress to her penthouse.."And how about this," he continued. "Every point in the universe is directly connected to every other point, regardless of distance, so any point on Mars is, in some mysterious way, as close to me as is any of you. Which means it's possible for information-and objects, even people-to move instantly between here and London without wires or microwave transmission. In fact, between here and a distant star, instantly. We just haven't figured out how to make it happen. Indeed, on a deep structural level, every point in the universe is the same point. This interconnectedness is so complete that a great flock of birds taking flight in Tokyo, disturbing the air with their wings, contributes to weather changes in Chicago."..Bearing roses upon their arrival, they hadn't bothered with umbrellas. Besides, although the sky glowered, the forecast had predicted no precipitation..First room on the left. Move. Kick the door open. The sense of a larger space beyond, no bathroom this time, and darker. Fan the pistol, gripping with both hands. Two quick shots: muffled cough, muffled cough..Friday brought Scamp again, all of Scamp, all day, every way, wall-to-wall Scamp, so on Saturday he hadn't enough energy to do more than shower..Startled, Nolly checked his shirt pocket and withdrew a quarter. "It's not the same one."..He supposed Victoria might have a visitor. Perhaps a relative or a girlfriend. Not a man. No. She knew who her man was, and she would have no other while she waited for the chance to surrender to him and to consummate the relationship that had begun with the spoon and the ice in the hospital ten days previously..And there are songs, old lays and ballads from small islands and from the quiet uplands of Havnor, that tell the story of those years..Standing near the foot of the bed in a shapeless blue suit, Vanadium might have been the work of an eccentric artist who had carved a man out of Spam and dressed the meaty sculpture in thrift-shop threads..Matching her fierce attention with a sudden intensity of his own, Joey said, "Bartholomew."..Robert Heinlein saved her. Over hot dogs and chips, she read to Barty from Red Planet, beginning at the top of page 104. He had previously shared enough of the story with Agnes so that she felt connected to the narrative, and soon she was sufficiently involved with the tale that she was better able to conceal her anguish..Vanadium understood the depth of his old friend's pain, and he knew that the anguish over the loss of a child could make the best of men act out of emotion rather than good judgment, and so he accepted Harrison's preference to let the matter rest. When enough time passed for reflection, what Vanadium ultimately decided was that of the two of them, Harrison was much the stronger in his faith, and that he himself, perhaps for the rest of his life, would be more comfortable behind a badge than behind a Roman collar..Reaching between the slats, Agnes tickled the pink piggies on his left foot. "Toes."..Minutes later, once more in a corridor conference with Dr. Daines, she was forced to temper her new optimism..Soundlessly, reluctantly, Agnes pulled the bedroom door nearly shut, and went down to the kitchen, where she sat alone, drinking coffee and nibbling at mysteries. Of all the gifts that Barty opened on Christmas morning, the hardback copy of Robert Heinlein's The Star Beast was his favorite. Instantly enchanted by the promise of an amusing alien creature, space travel, an exotic future, and lots of adventure, he seized every opportunity throughout the busy day to crack open those pages and to step out of Bright Beach into stranger places.."And, listen, if you leave too soon behind me, I've got a guy watching, and he'll put a hollow-point thirty-eight in your ass."..In fact, although weak and achy, Junior felt mentally refreshed and wonderfully alert..In his mind's eye, he saw the answering machine with uncanny clarity. That curious gadget. Sitting atop the scarred pine desk..One of his favorite gifts for Christmas 1967 was a twelve-hole chromatic harmonica with forty-eight reeds providing a full three-octave range. Even in his little hands, and with the limitations of his small mouth, this more sophisticated instrument enabled him to produce full-bodied versions of any song that appealed to him..As Obadiah lowered himself into a well-worn armchair, he said to Edom, "Son, don't I know you from somewhere?"..Maybe he would get lucky, and an airliner would fall out of the sky right now, right here, obliterating him in an instant..Playing with fire was fun when you didn't have to attempt to conceal the fact that it was arson..After a long time the door opened and several men came in. He could do nothing against them as they gagged him and bound his arms behind him. "Now you won't weave charms nor speak spells, young'un," said a broad, strong man with a furrowed face, "but you can nod your head well enough, right? They sent you here as a dowser. If you're a good dowser you'll feed well and sleep easy. Cinnabar, that's what you're to nod for. The King's wizard says it's still here somewhere about these old mines. And he wants it. So it's best for us that we find it. Now I'll walk you out. It's like I'm the water finder and you're my wand, see? You lead on. And if you want to go this way or that way you dip your head, so. And when you know there's ore underfoot, you stamp on the place, so. Now that's the bargain, right? And if you play fair I will."..No. Ridiculous. Naomi wasn't slumped across him. He wasn't sharing his bed with a corpse. That was E.C. Comics stuff, something from a yellowed issue of Tales from the Crypt..AS MEANINGFUL AS Jacob's death had been within the small world of his family, Agnes Lampion never lost sight of the fact that there were more resonant deaths in the larger world before 1968 ended and the Year of the Rooster followed. On the fourth of April, James Earl Ray gunned down Martin Luther King on a motel balcony in Memphis, but the assassin's hopes were foiled when, because of this murder, freedom grew more vigorously from the richness of a in martyr's blood. On June 1, Helen Keller died peacefully at eighty-seven. Blind and deaf since early

childhood, mute until her adolescence, Miss Keller led a life of astonishing accomplishment; she learned to speak, to ride horses, to waltz; she graduated cum laude from Radcliffe, an inspiration to millions and a testament to the potential in even the most blighted life. On June 5, Senator Robert F. Kennedy was assassinated in the kitchen of the Ambassador Hotel in Los Angeles. Unknown numbers died when Soviet tanks invaded Czechoslovakia, and hundreds of thousands perished in the final days of the Cultural Revolution in China, many eaten in acts of cannibalism sanctioned by Chairman Mao as acceptable political action. John Steinbeck, novelist, and Tallulah Bankhead, actress, came to the end of their journeys in this world, if not yet in all others. But James Lovell, William Anders, and Frank Borman-the first men to orbit the moon-traveled 250,000 miles into space, and all returned alive..Junior knew that she must be teasing him. Her sense of play was delicious. Such devilry in her scintillant blue eyes, such sauciness..At the midpoint of the table, directly under the chandelier, the flashing silvery disc turned through the air, turned, turned, turned out of this world into another..He bolted up from the sofa, saying too loudly, "Canned hams," but at once he realized this made no sense, none, zip, so he searched desperately for something coherent to say--"Potatoes, corn chips"--which was equally ridiculous. Now Obadiah was staring at him with that concerned alarm you saw on the faces of people watching an epileptic in an uncontrolled fit, so Edom plunged across the living room as though he were falling off a ladder, toward the front door, struggling to explain himself as he went: "We've brought some, there are some, I'll get some.,If Junior were weak-minded enough to succumb to madness, this was the moment when he should have fallen into an abyss of insanity. He heard an internal cracking, felt a terrible splintering in his mind, but he held himself together with sheer willpower, remembering to breathe slowly and deeply..It occurred to her that the knave had come, as foretold by the cards on that night long ago. She had expected the knave to be a man with sharp eyes and a wicked heart, but the curse was cancer and not a man at all..Later, at home, he gargled until he had drained half a bottle of mint-flavored mouthwash, took the longest shower of his life, and then used the other half of the mouthwash..This is, of course, the purpose of art: to disturb you, to leave you uneasy with yourself and wary of the world, to undermine your sense of reality in order to make you reconsider all that you think you know. The finest art should shatter you emotionally, devastate you intellectually, leave you physically ill, and fill you with loathing for those cultural traditions that bind us and weigh us down and drown us in a sea of conformity. Junior had learned this much, already, from his art appreciation course..Meanwhile, before they needed to plan the wedding, there was time for an orange soda and a root beer, and more of Dr Jekyll and Mr Hyde..Having been an object of Thomas Vanadium's fixation, Junior felt fortunate to have survived. He shuddered..Junior couldn't imagine why some Negro stranger would want to intrude. He hoped there wouldn't be trouble..According to Helen, more than half the paintings had been sold by the close of the reception, a record for the gallery. With the exhibition scheduled to run two fall weeks, she was confident that they would enjoy a sellout or the next thing to it..If he had cut himself intentionally for the express purpose of writing the name in blood, then the reservoir of anger was deeper still and pent up behind a formidable dam of obsession.. "You remember things?" the girl asked, her fingertips still pressed lightly to his cheek..The second and third rooms proved to be deserted, as well, and as muffled as the cushioned spaces of a funeral home, but an office was tucked discreetly at the back of the final chamber. As Junior crossed the third room, apparently monitored by closed-circuit security cameras, a man glided out of the office to greet him..MONEY FOR THE DEAD. The decomposing flesh of a beloved wife and an unborn baby transmuted into a fortune was an achievement that put to shame the alchemists' dreams of turning lead to gold..The glittering room appeared unchanged. Even the piano player seemed to be the man who'd been at the keyboard back then, though his yellow-rose boutonniere and probably his tuxedo, as well, were new..Retracing his path across the kitchen, he caught a faint whiff of jasmine from the backyard. Funny, jasmine here inside. Two paces later, he felt a draft..dent? You do believe that? Because I don't see ... I don't know how could work with someone who thought I was capable of . . . ".Although this was perhaps the happiest evening of Celestina's life, it wasn't without a note of melancholy. She couldn't avoid thinking about Phimie..When Agnes woke at 1:50 A.M., she was in the grip of a vague apprehension for which she couldn't identify a source.. "As I explained, he might have thought I was you," Edom said, staring at the neatly ordered volumes on the nearby bookshelves..FOR THE BETTER PART of a week, on doctor's orders, Agnes avoided stairs. She took sponge baths in the ground-floor powder room and slept in the parlor, on a sofa bed, with Barty nearby in a bassinet.. "I'm wondering," Nolly said, "if you're not an officer of the law anymore, in what capacity are you going to pursue Cain?"..Already another contraction racked her, so intense that the pain was not limited to her lower back and abdomen, but seared the length of her spine, like an electric current leaping vertebra to vertebra. Her breath pinched in her chest as though her lungs had collapsed..be entombed in one of those memorial walls, well above ground level, where nothing was likely to seep into them..Clutching the blanket, she thought of the funerary lap robes that red the legs of the deceased in their caskets, for she felt sometimes cove half dead. Both feet in this world-yet walking beside Joey on a strange road Beyond..Now, the hateful music unnerved him. He became convinced that if he went home alone, the phantom chanteuse-whether Victoria Bressler's vengeful ghost or something else-would croon to him once more. He wanted company and distraction, after all..Eleven days had passed since Wally stopped three bullets. He still had a little residual weakness in his arms, grew tired more easily than before he'd wound up on the wrong end of a pistol, complained of stiffness in his muscles, and used a cane to keep his full weight off his wounded leg. The rest of the medical care he required, as well as physical rehabilitation, could be had in Bright Beach as well as in San Francisco. By March, he should be back to normal, assuming that the definition of normal included massive scars and an internal hollow space where once his spleen had been..Finally he began: Greetings on this momentous day. I'm writing to you about an exceptional woman, Agnes Lampion, whose life you have touched without knowing, and whose story may interest you.. "I never spoke with God--Nor visited in

Heaven--Yet certain am I of the spot--As if the Checks were given." Angel, as if in God's own hands, stared with round-eyed wonder at the physician..Tom said, "Now I'm going to add a human touch and a spiritual spin to all this. When each of us comes to a point where he has to make a significant moral decision affecting the development of his character and the lives of others, and each time he makes the less wise choice, that's where I myself believe a new world splits off. When I make an immoral or just a foolish choice, another world is created in which I did the right thing, and in that world, I am redeemed for a while, given a chance to become a better version of the Tom Vanadium who lives on in the other world of the wrong choice. There are so many worlds with imperfect Tom Vanadiums, but always someplace ... someplace I'm moving steadily toward a state of grace." "Or at least, if the police knew the truth at that time, they hadn't yet gone public with it. I had no reason to mention it to you back then. I didn't even know Vanadium was missing." "When your hands are bigger," Tom agreed, "I'm sure you could. In fact, one day I'll teach you." Seraphim White had come to California to give birth to him in or to spare her parents-and their congregation--embarrassment..If Cain had been attracted to one woman by her looks, surely he would be attracted to the other. And perhaps the sisters shared a quality other than beauty that drew Cain with even greater power. Innocence, perhaps, or goodness: both foods for a demon..Barty rounded the tree and returned to the porch. He climbed the steps and stood before Tom..Rena laughed. "Oh, but true! And not just a garden. I'm a field of flowers!" She let go of her skirt, which shimmered like cascades of falling petals. "So tonight will be a famous night, Celestina." If he woke, however, and saw her sitting vigil, Barty would understand how terrible his condition might be..Agnes called their two-car parade a Christmas caravan, which appealed to Barty's sense of magic and adventure. Repeatedly he turned in his seat and rose to his knees to look back at his uncle Edom, waving vigorously..Somewhere in the world he had a deadly enemy: Bartholomew, who had something to do with babies, a total stranger yet an implacable foe..Celestina had wanted to go to Oregon for the service, but Tom, Max Bellini, the Spruce Hills police, and Wally Lipscomb-to whom, by Sunday, she'd begun talking almost hourly on the telephone-all advised strenuously against making the trip. A man as crazed and as reckless as Enoch Cain, expecting to find her at the funeral home or the cemetery, might not be deterred by a police guard, no matter what its size..The right side of the girl's face appeared to be more strongly affected by gravity.For Junior, 1968-the Chinese Year of the Monkey--would be the Year of the Plastic Surgeon. He would require extensive dermabrasion to restore the smoothness and tone to his skin, to be as irresistibly kissable as he had been before. While at it, he would need surgery to make subtle changes in his features. Tricky. He didn't want to trade perfection for anonymity. He must take care to ensure that his postsurgery look, when he let his hair grow in and perhaps dyed it, would be as devastating to women as his previous appearance..Still seeking some missing fact, some insight that would help him understand the maniac's Bartholomew obsession, Tom asked more questions until Celestina suddenly realized and revealed what might be the information that he sought: Cain's perverse insistence on playing the reverend's taped rough draft of "This Momentous Day" throughout his long assault on her sister..After Bellini left, Tom questioned Celestina extensively, with an emphasis on Phimie's rape. Although the subject was painful, she was grateful for the questions. Without this distraction, in spite of her well of hope, she might have allowed her imagination to fashion terror after terror, until Wally had died a hundred times over in her mind..This device, which could automatically pick any lock with just a few pulls of its trigger, was sold strictly to police departments, and its distribution was tightly controlled. On the black market it commanded such a high price that Junior could have bought the better part of a small Sklent painting for the same bucks.. "Of all the things I might be meant to do with my life," he told Agnes, "I believe nothing will matter more than the small part I've had in bringing together these two children." Magusson was a small man behind a huge desk. His head appeared too large for his body, but his ears seemed no bigger than a pair of silver dollars. Large protuberant eyes, bulging with shrewdness and feverish with ambition, marked him as one who'd be hungry a minute after standing up from a daylong feast. A button nose too severely turned up at the tip, an upper lip long enough to rival that of an orangutan, and a mean slash of a mouth completed a portrait sure to repel any woman with eyesight; but if you wanted an attorney who was angry at the world for having been cursed with ugliness and who could convert that anger into the energy and ruthlessness of a pit bull in the courtroom, even while using his unfortunate looks to gain the jurors' sympathy, then Simon Magusson was the counselor for you..Bartholomew was dead but didn't know it yet. Pistol in hand, cocoon in tatters, ready to spread his butterfly wings, Junior pushed the door to the apartment inward, saw a deserted living room, softly lighted and pleasantly furnished, and was about to step across the threshold when the street door opened and into the hall came Ichabod..She repeated this ritual eleven more times--"For Andrew, for James, for John"--frequently glancing into the nave behind her, to be sure that she was unobserved.
